

Dear Parents and Carers,

Temporary School Closure Due to Emergency Plumbing

I am writing to provide you with an update regarding the temporary closure of the school due to the significant water leak affecting the school's toilet facilities.

Unfortunately, due to delays in the contractors completing the necessary repair works, the school will remain closed for a further two days. As the toilet facilities cannot yet be used safely, we are unable to reopen the school until the works have been completed.

The school will therefore remain closed this week on **Tuesday and Wednesday**. We currently anticipate reopening on **Thursday 18th June**, subject to the successful completion of the repairs. We will keep you updated should this change.

Teachers will continue to provide learning activities for pupils to complete at home during the closure. Any alternative arrangements will be discussed between parents/carers and the class Teacher. Further information regarding these arrangements will be communicated separately.

We sincerely apologise for the continued disruption and appreciate your patience and understanding while the repairs are completed safely.

Thank you for your continued support and cooperation.

Simon Kirsima
